
TR-IST-030 READ ME

CONTENT

This site contains the final report of RTG IST-030 on Information Management over Disadvantaged Grids, as well as technical evaluation reports of two informal workshops organized by the Task Group on the following topics:

- ‘Data Replication over Disadvantaged Tactical Communication Links’; and
- ‘Cross-Layer Issues in the Design of Tactical Mobile Ad Hoc Wireless Networks: Integration of Communication and Networking Functions to Support Optimal Information Management’.

The Task Group also organized an informal workshop on the topic:

- ‘Role of Middleware in Systems Functioning over Mobile Wireless Networks’.

No technical evaluation report was produced for this workshop.

FILE ORGANIZATION

The final report is organized as an ordered set of PDF files. These are followed by the workshop technical evaluation reports, each contained within a single PDF file. Annexes to the technical evaluation reports are listed separately.

The Technical Programmes for the workshops can be found in Annex A to each technical evaluation report as well as in Annexes A, B, and C of the main report. A workshop presentation can be accessed by clicking on the presentation name within the appropriate Technical Programme.

The presentations from the first and second workshops are in PowerPoint format. The slides can be advanced by clicking on them. The presentations from the third workshop are in PDF format. The slides must be advanced by clicking on the slide icon under ‘Bookmarks’ or by clicking on the arrow in the menu bar.
