Executive Summary	iii
Synthèse	iv
Theme/Thème	viii
Panel Officer and Programme Committee	x
	Reference
Technical Evaluation Report by T.D. Taylor	T
Keynote Address by L.M. Nicolai	K
SESSION I: APPLICATIONS Chairman: Dr E. ZIMET (US)	
Predator Update and Bosnia Operations by L.L. Ernst	1†
From Manned to Unmanned: a Viable Alternative to the Scrapyard by A. Gatti	2
The Role of Unmanned Tactical Aircraft in the Battlefield Surveillance by R. Thevenot and A. d'Audiffret	3
Highly Maneuverable Lethal Vehicle (HMLV) Concept by G.M. Palfalvy, D.K. Andes and D. Siegel	4
The Operational Effectiveness of UCAVs in Mobile Target Attack by B.D. Stewart	5
SESSION II: OPERATIONAL CONCEPTS I Chairman: Mr B. CAMPBELL (US)	
Design Considerations for Future Uninhabited Combat Air Vehicles by A.J. Chaput	6
CONOPS of HALE UTA in an Infrared Early Warning Mission for Theater Missiles Defense by H. Gilibert and R. Thevenot	7

† Paper not available at time of printing.

System Integrity Considerations for Unmanned Tactical Aircraft by D. Scheithauer and G. Wunderlich	8
Joint Semi-Autonomous Air Weapon System by R.W. Schwartz, S.B. Millett, F.T. Rogers and B. Hedman	9
Unconstrained Maneuver Air Vehicle, A Configuration Development by B.W. Shenk	10
Sensor Alternatives for Future Unmanned Tactical Aircraft by E.L. Fleeman	11

SESSION III: OPERATIONAL CONCEPTS II
Chairman: Mr B. MAZZETTI (IT)

System Layout of an Unmanned High Altitude Aircraft for Certification and Flight in Civil Airspace by I. Papachristofilou, P. Kämpf and O. Wagner	12
Drone hypersonique pour des missions de reconnaissance en profondeur by L. Serre	13
Operational Concepts for Uninhabited Tactical Aircraft by D.A. Deets and D. Purifoy	14
The Challenge of UAV Supporting Offensive Air Operations by R.A. Frampton	15
Autopilot Synthesis for Unmanned Tactical Air Vehicles (UTAV) by P. Faggion and L. Zolla	16
Mission Re-Planning for Standoff Weapons by M. Henne and J.H. Baker	17

SESSION IV: ADVANCES IN UTA TECHNIQUES AND TECHNOLOGIES (NAV, C³I, G&C)
Chairman: Mr J.-B. SENNEVILLE (FR)

Autonomous Navigation and Control Functions of the CL-327 VTOL UAV by M. Pelletier, A. Sakamoto, C. Tessier and G. Saintonge	18
Reliable Autonomous Precise Integrated Navigation RAPIN for Present and Future Air-Vehicles by T. Köhler, F. Tumbrägel and J. Beyer	19
Landmark Navigation and Autonomous Landing Approach with Obstacle Detection for Aircraft by S. Fürst, S. Werner, D. Dickmanns and E.-D. Dickmanns	20
Integrated Data Link for UTA Applications: Design Considerations and Development Results by L. Bianchi, G. Battaini, G.L. Scazzola and E. Crovari	21

Investigation of Human Performance Monitoring an IR-Camera View from an Unmanned Tactical Aircraft	22
by K.-P. Gärtner and W. Krüger	

**SESSION V: ADVANCES IN UTA TECHNIQUES AND TECHNOLOGIES
(SENSORS, PROCESSING DATA FUSION)
Chairman: Dr.-Ing. L. CROVELLA (IT)**

CRESUS Charge radar embarquée sur U.A.V. de surveillance	23
(Radar Payload for Surveillance U.A.V.s)	
by F. Perret, J.-M. Hermer, T. Gach and E. Sicsik-Pare	
Layered Fault Tolerant Architecture to Support Context-Sensitive Reasoning for Lethal Unmanned Aerial Vehicle Application	24
by J. Rau	
Image Data Management for Tactical Unmanned Airborne Surveillance	25
by M.R. Davenport, H. Wehn and I. Burke	
Unmanned Tactical Air Vehicles - An Electronic Combat Perspective	26
by S.J. Langham and P.M. Zanker	
Small Effective Air-to-Surface Munitions for Unmanned Tactical Aircraft Applications	27
by D.R. Brubaker	
Paper 28 withdrawn
